

**PP1** Male PCB contacts, gold plated, for chassis connectors

The modular system of the miniCON series offers the possibility to assemble a desired connector from a wide range of various parts. Including additional parts for special versions (e.g. cable connector extension, crimp set, ...).

The neutriCON connectors are designed for multipin/industrial applications in harsh and demanding environment. The very robust all metal circular connector offers easy and screwless assembly, flexible part combination and a push-pull locking mechanism.

#### **Features & Benefits**

- Contact configuration can be selected from 1 to 8 contacts
- Easy assembly: Contact soldering / crimping in disassembled condition avoids awkward wiring of high density contacts.
- ✓ Precise and robust all metal housing
- ✓ Push-pull self-locking system
- Coding system possible (polarization)

#### NEUTRIK

## Polarization

Housing: Two variants of metal polarizing guides (90° and 180°).

### **Modular System**

# **Technical Information**

Product	
Title	PP1
Connection Type	neutriCON
Gender	male

Mechanical	
Wiresize	
Wiring	PCB contact
Environmental	
Solderability	Complies with IEC 68-2-20
